DETAILED ACTION

Examiner's Amendment

1. Authorization for this examiner's amendment had been given in a telephone interview with Peter Flanagan on 3/26/2007.

The application has been amended as follows:

With claims 39, 56 and 59, replace *—A computer program product recorded on a computer readable medium for balancing transmission unit traffic over network links, comprising —* to *“A computer readable medium encoded with a compute program for balancing transmission unit traffic over network links and the computer program comprises”*.

Claim 68 has been canceled.

Response to Amendment

2. Applicants' amendments and remarks, filed on 2/1/2007, with respect to Claims 1-37, 39-67 and 69-70 have been fully considered and are persuasive. The 35U.S.C.103 rejections have been withdrawn. None of the previously cited reference teaches the Claims 1-37, 39-67 and 69-70.

Claims 38 had been canceled.

Allowable Subject Matter

3. Claims 1-37, 39-67 and 69-70 are allowed.

Examiner's Statement of Reasons for Allowance

4. The following is a statement of reasons for the indication of allowable subject matter: The prior art along or in combination fails to teach or make obvious the following limitations:

"grouping flows into first flow lists, each of the first flow lists corresponding to a selected network link; determining a traffic metric representative of a traffic load on the selected network link; responsive to the traffic metric, regrouping flows into second flow lists corresponding to the selected network link, the regrouping balancing the transmission unit traffic among the network links" as recited in the independent claims 1, 18, 21, 30-32, 39, 56, and 59, and

"a flow classifier, coupled with the link classifier, that determines flow characteristics representative of a plurality of selected flows, and responsive thereto, assigns the plurality of selected flows to a selected link such that the selected transmission units respectively represented by the plurality of selected flows are communicated with the communication network through the respective selected network links" as recited in the independent claims 69.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany
